

Robots

An accidental love story

What happens when two robots who love accidentals meet? They fall in love and start adding sharps and flats to every note they see! Join them in their frenzied fun by following the instructions below.

1. Trace the sharps and flats below. Notice that the center of the sharp, and the center of the bump on the flat are in the same space or on the same line as the note.

2. Add sharps to each of the notes below.

3. Add flats to each of the notes below.

4. Trace all of these sharps and flats and write the letter name of the line or space beneath each sharp and flat.
